

Product Data Sheet

Helicopter Riggers Belt

RS019PBQC

The Helicopter Riggers Belt was designed in collaboration with the UK National Police Air Service, it is a restraint belt worn by the rear Tactical Flight Officer/observer when flying with the door open.

With a padded, double thickness webbing belt, a low profile buckle, and a fold away rear D, it can be worn all the time without interfering with normal TFO duties.

The rear D attachment point can be unfolded, allowing a lanyard to be connected to the anchor ring whilst ensuring unhindered access to the open door.

PLEASE NOTE: The Helicopter Riggers Belt is a restraint belt only and should not be used as a harness or rescue loop for suspension/winchng.

Specs:

- Rated to 150kg

Weight & Sizing:

- Waist: 80cm - 130cm
- Weight: 340g

Conforms to:

- EN358:2018
