## Wire Anchor Strop

L0015, L0024, L0025, L0026, L0027,  
L0028, L0029 & L0030

Our Wire Anchor Strop conforms to EN795:B, as well as PD CEN/TS 16415:20013 Type B for a 2 person load.

Available in galvanised or stainless steel wire, they can be made to any length of your choosing.

Other options include: with or without thimble eye, and with or without protective tubing. We offer a choice from 7 tubing colours, which enables you to colour code the strops for length, for kit allocation, or for any other purpose.
