

## Adjustable Stretcher Lifting Slings

ST007 & ST016

Universal lifting slings for winching and lifting/lowering of any compatible stretcher. The Adjustable Stretcher Lifting Slings are fully adjustable for use with the stretcher either horizontal or vertical. Must only be used as lifting slings, attached to the stretcher. The slings have been approved for helicopter winching by the UK Maritime & Coastguard Agency.

The slings are fitted with maillons as standard, other connector options are available, or the slings can come with no connectors fitted. Contact us for connector options.

### Specs:

- Strength of each sling: 11kN
- 2 Slings (vertical lift): 22kN
- 4 Slings (horizontal lift): 44kN
- Minimum Length: 45cm (including maillons)
- All connections using Delta Maillons EN362:05/Q & EN12275
- Weight: 1.5kg (1.2m lifting slings) - 1.7kg (2m lifting slings)

### Conforms to:

- Maillons: EN362:05/Q & EN12275
