

Stretcher Lifting Bridle

ST020

The Stretcher Lifting Bridle has the same large opening connectors as the Basket Stretcher Lifting Slings, but features a simple dual adjustment system that allows each end to be adjusted using one buckle. They are suitable for use with the stretcher either horizontal or vertical. The slings have been approved for helicopter winching by the UK Maritime & Coastguard Agency.

Specs:

- Minimum Length: 1m
- Maximum Length: 1.4m
- Strength of each sling: 11kN
- 2 Slings (vertical lift): 22kN
- 4 Slings (horizontal lift): 44kN
- Stretcher Connection: Extra large karabiner (40kN EN362 with a 55mm gate opening)
- Weight: 2.5kg

Conforms to:

- Karabiners - EN362
