

Product Data Sheet

THOR-Pro Rope Protector

RR029T

The THOR-Pro Rope Protectors are made by incorporating a middle layer of the unique THOR Aramid (Kevlar equivalent) material, sandwiched between two layers of ultra hardwearing military grade canvas. This combination gives a highly abrasion and heat resistant construction that will stand up to the toughest of tasks - THOR material was developed for use in ballistic vests, making these rope protectors literally bulletproof!

They feature a full length velcro side closure, and a cord loop for attachment to either the structure or to the rope.

Specs:

- Width: 15cm
- Length: 80cm
- Velcro fastener
- Turquoise
- 4mm cord tab
